### Some details about the choreography music "Just Dance" with lady gaga

#### 1<sup>st</sup> run through—will have 4-5 couples dance this part

- starts on the 3rd count of 8 after the singing begins
- skips the Las Vegas through the NY walk ... (goes from rib chaser seq to 4 count turn) - right back out to 2 hands for the wheel.

#### 2<sup>nd</sup> run through

group # 2 should be ready to send follower out from closed—leaders will be facing the opposite way of where the leaders in group # 1 faced when they started. Start in closed dance—send the follower out to 2 hands for the wheel—when the leaders in group #1 do the comb to release in the flick to shadow sequence.

do all the moves— from shadow end into a fall away to closed into a dip – then send out to 2 hands for the wheel for the next run through.

#### 3rd run through until the song ends

do all the moves— after the flick to shadow sequence—return to closed then out to 2 hands for the wheel. no other changes after that.. just go go go.. keep up with the song :)
